

DHARMARAJ

Bengaluru, India | +91-7022159526 | dharmarajs877@gmail.com | [LinkedIn](#) | [LeetCode](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Aspiring Software Engineer with proficiency in Java and Web Development, Networking, backed by solid foundations in Data Structures and Algorithms. Solved 300+ coding problems across platforms like LeetCode and GFG, with strong understanding of time and space complexity. Actively preparing for software engineering roles

EDUCATION

Don Bosco Institute of Technology, Bengaluru

2023 – 2027 (Expected)

B.E. in Information Science and Engineering

S.P.U Science College, Karnataka

2021 – 2023

Class XII | Percentage: 87%

S.G.C.H School, Karnataka

08/2020 – 07/2021

Class X | Percentage: 94%

TECHNICAL SKILLS

Programming Languages:	C, Java
Frontend:	HTML, CSS, JavaScript, React.js, Bootstrap, Material UI, Tailwind CSS
Backend:	Familiar with Node.js, Express.js, MongoDB, REST APIs
Tools & Platforms:	Git, GitHub, Postman, VS Code, Vercel, Selenium
Core C.S	Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems (OS), Computer Networks (CN)

PROJECTS

FairFix with API Integration | [Live](#) | [Github](#)

MERN Stack | Ongoing

- Built FairFix, a service-based web application connecting users with service providers through a clean and intuitive interface.
- Integrated frontend React components with Express.js backend APIs for seamless data flow, form handling, and real-time state updates.

BrainBox – Learning Management System (LMS) | [Live](#) | [Github](#)

MERN Stack

- Designed and developed a full-stack Learning Management System with role-based access for students and instructors.
- Implemented secure authentication and authorization using Clerk, built complete CRUD operations.
- Improved user experience through efficient state management and asynchronous data fetching.

Weather Widget – Real-Time Weather Application | [Live](#) | [Github](#)

React.js, REST API

- Built a responsive weather widget in React.js integrating a third-party weather API to display real-time temperature, humidity, and weather conditions.
- Reduced redundant API requests using **debounced search functionality**, improving application responsiveness.

ACHIEVEMENTS

- Solved over **300+ Coding Questions** combined on different platforms like LeetCode and GFG using Java.
- Actively participating in University in **coding contest**.
- Built and deployed multiple full-stack web applications handling authentication, CRUD operations, and API integrations.

CERTIFICATIONS

- Software Development Job Simulation – [Datacom](#)
- Solutions Architecture Job Simulation – [Amazon Web Services \(AWS\)](#)
- Data Structures and Algorithms – [Apna College \(Certificate of Completion\)](#)
